1. The above radius information only pertains to a 90 degree arc (1/4 circle) and are representative of sizes that can be priced in eRapid. Requests for arc other than 90 degree ex: 180 degree (1/2 column) or 360 degree (complete column), or smaller radius sizes, contact the factory.
2. Do not price the above products at a spiral (radius on a slope).
3. Continuous aluminum retainers are used in lieu of clip retainers.
