PRWW	Factory Supplied/unattached***	Factory Supplied/unattached	no (2 endcaps)	no (2 endcaps)
WB35	Field mitered	Field mitered	Field mitered	Field mitered

### Notes:

Add an extra 6" of material per endcap required for field miters unless otherwise noted.

\*\*\* Endcaps to be purchased separately.

NOTE: There are times when the factory supplies endcaps for random lengths. When requested, the endcaps will ship attached (whenever possible) so wood grains will match. However, **the endcaps must be purchased separately**. C/S will attach one endcap per random length, alternating right and left caps. (per order)

**Radius** - all the above models, **with the exclusion of CRWS1**, can be radiused from 6' to 40' @ an add of \$45 per lineal foot to the standard rail price. **CRWS2 can be radiused using a vinyl insert**, which has the same appearance as the Stainless Steel inserts.
